SUMMARY

Developer with over 4 years of experience in designing, developing and maintaining Web Application and Web Service API development. Experienced in creating RESTful APIs, Function Apps and leveraging Azure Cloud services for seamless application deployment and management. Experienced in Agile Scrum and Proficient in translating designs and wireframes into high-quality code.

WORK EXPERIENCE

Pacific-ALM-APP-Upgrade Service

06/2024 – Present

Technologies: HTML, CSS, SQL, C#, .Net Framework, .Net Core, VB .Net, Scheduled SQL Jobs, SSIS Packages.

- Developed and maintained applications using both C# .NET and VB.NET, implementing multiple enhancements based on evolving business requirements.
- Migrated legacy applications from older .NET versions to newer frameworks, resolving library dependencies.
- Designed and implemented complex SQL Jobs to automate backend processes and meet client-specific data handling needs.
- Created and optimized SSIS packages for diverse data flow scenarios, integrating them with SQL Jobs to streamline operations and reduce code complexity.
- Took complete ownership of applications from initial development through deployment, providing post-deployment support during the stabilization phase to address user-reported issues.

UL LLC – MyUL Portal Agile FB

04/2022 – 06/2024

Technologies: C# Asp.NET, .NET Core, Entity Framework, SQL, LINQ, Cosmos DB, Microsoft Azure, Azure Devops, REST API's, Micro Services and Function Apps.

- Creating new API's as per Client Requirement and doing enhancement work on existing API's or Function Apps and documenting behavior of API's / Function Apps created and framing the input and output structure.
- Migrating codes for multiple applications from .Net Framework to .Net Core to achieve coding standards.
- Managing Application & Service Delivery through Azure Devops and responsible for Production deployment.
- Troubleshoot issues, perform root cause analysis and implement solutions to resolve technical challenges.
- Development interacting with the stakeholders to Clarify requirements which helped team to understand complexity, acceptance criteria and estimate the user stories.

SKILLS

- **Technical Skills:** C# - Asp.Net, .Net Core, Entity Framework, Rest API, SQL Jobs, SSIS Packages, Microsoft SQL Database, LINQ, Cosmos DB, Clean Architecture, Microsoft Azure, Azure Function Apps, HTML5, CSS3, Application Migration/Upgrade, Manual Testing.
 - **Project Management Tools:** Git-Hub, Azure Devops.
-

EDUCATION

Bachelor of Engineering

Graduation Year - 2020
